

CORROCOAT

Environmental Policy

We believe that it is essential that we carry out our business with the utmost care and responsibility for the environment. We strive to minimise our impact on the environment and to continuously improve our environmental performance as reasonably practicable and economically possible.

Our main commitment is to continually improve the environmental performance throughout the company.

Objectives of the policy are:

To comply with all relevant regulatory requirements.

To minimise Health & Safety risk and dispose of waste safely and responsibly.

To minimise waste, reduce air, water and other pollution.

To seek to eliminate and minimise waste at source and to recycle or re-use materials.

To promote the more efficient use of energy within the company.

To ensure that all new products, developments, processes are designed to minimise their impact on the environment.

To encourage the use of environmentally responsible suppliers and sub-contractors.

We will provide the resources necessary to achieve our objectives and involve management and employees in meeting policy objectives.

Signed

A handwritten signature in black ink, appearing to read 'Greenwood', is written over a background of vertical grey lines.
